FORWARD TECHNOLOGY F-200 SERIES

Open Top Solvent Cleaning Systems

...designed to safely employ all of todays non-flammable and EPA approved solvents

The Forward **Technology** F-200 SERIES is an economical solution to solvent precision cleaning applications. A typical process includes immersion in the latest ultrasonic technology - Crest ceramically enhanced 132kHz that produces unrivalled cleaning with HFC, HFE, NPB. HCFC solvents.

FEATURES

- Solvent immersion tank with patented Crest 40, 58, 132 or 192 kHz ultrasonics
- Electrically heated boiling immersion sump
- Dual compressor refrigeration
- PLC control with automation capability
- 120% freeboard ratio to limit solvent comsumption
- Removable panels for easy maintenance access
- Recirculation with cartridge filtration
- Two gravity water separators with molecular sieve capability
- Compact foot print for easy integration in production flow

- Manual downtime cover
- Stainless steel condenser and chiller coils to avoid corrosion
- Stainless steel process tanks with bright annealed finish
- Solvent cool down mode to minimize solvent loss
- Energy saver mode

F-200 Series

The FORWARD TECHNOLOGY
F-200 Series is ideal to remove organic residues like organic films, fingerprints, grease, mold release, oils, etc. Applications can be found in most industrial facilities.

1886 Berkshire Lane North Minneapolis, MN 55441

Phone: 763.559.1785 Fax: 763.559.3929

Safety

- Refrigeration temperature monitoring
- Boiling tank over temperature signal with solvent replacement warning.
- Extended freeboard volume
- · Boiling tank low level control
- Vapor level control with reset

Options

- Basket
- Automated transport system
- · Powered cover
- Upper enclosure
